

BACHELOR OF SCIENCE in DENTAL HYGIENE DEGREE COMPLETION

PROGRAMS IN DENTAL EDUCATION INDIANA UNIVERSITY SOUTH BEND

REQUIREMENTS

1. Associate of Science Prerequisite Cr. Hrs.	= 35
2. ASDH Professional Curriculum	= 53
3. Bachelor of Science Required Courses	= 15
4. Bachelor of Science Elective Courses	= 18
Total BSDH Completion Cr. Hrs.	= 121

Graduates from an accredited program holding the Associate of Science Degree (ASDH) in Dental Hygiene, and a current Indiana dental hygiene license may apply to the Bachelor of Science Degree Program (BSDH).

Applicants who receive dental hygiene degrees from accredited programs other than those offered by Indiana University will be considered transfer students for the purpose of fulfilling General Education requirements at Indiana University South Bend.

Courses required for admission may be taken at any Indiana University campus or may be accepted as transfer credits from other accredited institutions. Priority consideration is given to those students completing coursework on the IU South Bend campus.

Admission is competitive based on average of the GPA average for pre-professional coursework and the GPA for professional dental hygiene courses. A minimum GPA of 2.50 in each category is required.

K401 Integrated health

F260 Personal Finance

Dental Hygiene at IU South Bend

As the premier public institution of higher education in the area, the mission of the BSDH program is to prepare the dental hygienist to assume roles in many different health care environments such as general and specialty practices, public schools, community health clinics, dental hygiene educational programs, and in the health products industry.

Why IU South Bend?

The Programs in Dental Education are fully accredited by the American Dental Association Commission on Dental Accreditation. We work hard to build and maintain the most highly qualified faculty and staff.
