When a student indicates on their Free Application for Student Aid (FAFSA) that a parent is enrolled in college, the FAFSA does not count that parent as a member of the household in college. To include the parent in the number in college, the student must complete this worksheet.

Please have your parent, _____, take this worksheet to the registrar's office at the college or university where they plan to enroll for the 2009-2010 academic year. Once it is complete, return the form to our office and we will correct the information on your FAFSA. Please contact our office at (574) 520-4357 with any questions.
