SUMMARY OF TIMELINE

- Academic Senate approved revisions to the IUSB Student Conduct Procedures for Personal and Academic Misconduct on April 24, 2015.
- Following the Academic Senate’s support, a submission to IU General Counsel (GC) for review was made and final amendments were integrated June 19, 2015.
- We are presenting the amendments to the Academic Senate on September 18, 2015 for green light implementation.

AMENDMENTS FROM INDIANA UNIVERSITY GENERAL COUNSEL

1. Alignment with IU Bloomington’s Summary Suspension procedures were amended
   - General Counsel noted this process would become uniform for all IU campuses in the near future, and it was recommended we adopt it while doing a thorough revision.

2. General Counsel noted a formal hearing is sufficient in providing students due process and their rights. An appeal, if desired by the student, would not need to be heard by a second group of individuals (formerly known as Campus Review Board). It will be reviewed by one administrator.
   - This format aligns us with the newest Indiana University procedures approved by the Board of Trustees, the Sexual Misconduct Procedures providing consistency.
   - For academic misconduct this individual would be the Executive Vice Chancellor for Academic Affairs or their designee (likely an Associate Vice Chancellor).
   - For Personal misconduct this individual will be the Associate Vice Chancellor for Student Services and Dean of Students.
   - It is noted that IUSB historically does not utilize the Campus Review Board, and the Office of Student Conduct supports a single reviewer; agreeing it would provide a fair and timelier option for students.

3. In academic misconduct procedures timeliness for meeting with the student, notification to Office of Student Conduct, and notifying the Office of Student Conduct of an appeal are not limited to 7 days. But, the timelines must remain reasonable.
   - This allows for flexibility for faculty in grading procedures, and academic department consultation on an as needed basis

4. Sexual misconduct is clearly delineated in the procedures and linked to the online IU state-wide policy and procedures.
   - These changes are outlined within the “Jurisdiction” section and Appendix A.
