**Title IX Compliance**

Title IX uses a three-part test to furnish an institution with three individual avenues to choose from when determining how it will provide individuals of each sex with nondiscriminatory opportunities to participate in intercollegiate athletics. If an institution has met any part of the three-part test, OCR will determine that the institution is meeting this requirement.

Part two of the three-part test asks this question: Is there a history and continuing practice of program expansion for the underrepresented sex?

With the addition of women’s softball in 2016-17, along with the proposed women’s sports for 2017-18, IU South Bend is showing a continuing practice of program expansion, therefore, meeting this requirement.
