

One of the Best Kept Secrets in Michiana!

“Computer and Information Sciences at IU South Bend”

Most students in our region are not aware that

- IUSB has been offering degrees in computer science since 1983.
- IUSB is the only public institution in the region (60-mile radius) equipped to offer quality undergraduate and graduate programs in computing.
- We have over 220 declared undergraduate majors in computer science.
- We offer a Bachelor of Science and an Associate of Science degree in computer science, Bachelor of Science degree in informatics, five certificate programs, a minor in computer science, minor in informatics, a minor in computer applications, and a minor in cognitive science.
- We have developed a partnership with the school of Business and Economics to offer a Master of Science degree in Management of Information Technology (MS-MIT).
- We offer a joint Master of Science in Applied Mathematics and Computer Science (MS-AMCS) with the department of Mathematical Sciences. There are about 30 students enrolled in this program.
- Our class sizes average around 20 students, and almost never exceed 30 students.
- We have 10 full-time faculty with Ph.D. degrees in computer science or closely related areas.
- We offer courses in South Bend, Elkhart and Plymouth campuses.
- Our programs are closely based on the recommendations of the ACM and IEEE, the primary professional computing organizations.
- Our faculty conduct research in a number of areas in computer science and informatics, including artificial intelligence, computer graphics, computer networks, algorithms, software engineering and database systems.
- Our alumni have nearly 100% placement.
- The typical salary for our new graduates in the region is approximately \$40,000 to \$52,000.
- Nearly 75% of our alumni stay and work in the area, making our community stronger.
