I am proud to share with you our 2012 and 2013 combined Annual Report. As you will see in it, we have already completed, or are well on the way to completing our second three-year plan that we established at the end of 2011. In that plan we set several goals:

- Recruit 60+ minors with a target graduation rate of 12/year
- Complete proposal for a Graduate Certificate in Strategic Sustainability for Leaders and begin implementation Fall 2013
- Carry out a 3-year sustainability and innovation training program, including 3 sustainability and innovation workshops, 3 advanced training courses for Sustainability Champions, and complete 8-12 videos for the Sustainability Mentors Program
- Offer a 3-year Talking Sustainability 24/7 Virtual Lecture Series
- Expand the Sustainability Network to 750 members
- Establish a Sustainability and Innovation subcommittee with Chamber of Commerce
- Complete proposal for a Major in Sustainability Studies
- Continue to increase contacts, grants, and development efforts
- Present and publish results of research and creative activity in sustainability studies
- Recruit and appoint 12 more Sustainability Fellows
- Give out 12 more Campus and Community Sustainability Awards

During the two years covered in this report, we have recruited 55 minors and graduated 10 of them. Our Graduate Certificate in Strategic Sustainability Leadership was completed in 2013, to be launched spring 2014. We have conducted 14 Sustainability and Innovation Workshops in collaboration with GreenTown: The Future of Community. We completed two years of our Talking Sustainability Virtual Lecture Series. Our Michiana Sustainable Community and Economic Development Network has surpassed 800+ contacts. We completed our proposal for a new BA degree in Sustainability Studies with plans to gain approval and launch in fall 2014. We have made numerous presentations and published two articles in Sustainability: The Journal of Record. And, we have appointed 8 more Sustainability Fellows and given out 8 more Campus and Community Sustainability Awards.

It was a busy and productive two years! In addition to the above, we also have conducted 14 workshops and produced 13 episodes of our Talking Sustainability interviews we do in cooperation with WNIT Public Television’s Experience Michiana. Our efforts during this period received extensive coverage in the media for a total of 44 news stories or newspaper/magazine articles. Finally, we received a total of just over $225,000 in donations, underwriting, grants, and indirect support.

Of course none of this could have happened without the efforts and collaboration of our faculty, staff, students, advisory board members, donors, and many supporters throughout the campus and community. This combined annual report represents and features the collective achievements and contributions of all of us, campus and community, working together to help create a sustainable future for IU South Bend and all of Michiana.

Mike Keen
Director
Mike Keen, Director
Mike Keen is a Professor of Sociology and a LEED AP. He received his Ph.D. from the University of Notre Dame. Previously he has served as Chair of the Department of Sociology and Anthropology, and as Director of the Master of Liberal Studies Program at IU South Bend. Professor Keen is Co-Chair of the City of South Bend Mayor's Green Ribbon Commission and Vice-President of the Board of Director’s of Unity Gardens, Inc. He is also a regular guest on WNIT Public Television’s Economic Outlook. In addition to general administrative oversight of the Center, he is responsible for curriculum development, community outreach, strategic planning, and grants, contracts, and external support. Trained in the Natural Step Framework, Professor Keen offers sustainability workshops and consulting for business, not-for-profits, and municipal government.

Krista Bailey, Assistant Director
Since arriving on the IU South Bend campus in the fall of 2007, Krista has been involved in sustainability research, writing, and projects both on campus and in the community. After working for years in the fields of community development and environmental education, she completed a Master’s of Liberal Studies degree at IU South Bend. Her research focus is on sustainable urban food systems, which reflects her involvement in community gardens and food justice projects. At the Center, Krista works on website maintenance, conference and event planning, editing the newsletter, social media, and outreach and education efforts.

Kathi Piekarski, Administrative Assistant
Kathi Piekarski is the administrative secretary for the Sociology and Anthropology Department, the Women’s and Gender Studies Program, Wolfson Press and the Center for a Sustainable Future. She received her B.S. in Secondary Education Degree from IU South Bend and has a License Practical Nursing Degree from Ivy Tech. Kathi has been employed at IUSB for the past 20 yrs. She loves reading, is passionate about animals, and currently volunteers in the community with her certified therapy dog, Paris, a black Standard Poodle. Some of the places they visit include Memorial Hospital, Family Children Center, Juvenile Justice Center, St Mary’s and Inwood Hills Estates. Kathi has also developed the Read to a Canine Friend Program at the St Joseph County Public Library, and the Relax with a Dog program here at IUSB to help students relieve stress.

Matt Shockey,
Assistant Professor,
Philosophy Department

Krista Bailey
Assistant Director,
Center for a Sustainable Future
Willow Wetherall

Willow will be producing an event called Ignite Michiana to be held in March 28, 2013 in downtown South Bend. Ignite is a global event, where participants are given five minutes to speak about their ideas and personal or professional passions, accompanied by 20 slides. The presentations are meant to "ignite" the audience on a subject, i.e. to generate awareness and to stimulate thought and action on the subjects presented. Ignite events serve as an information exchange for fostering and inspiring an area's creative community. Speakers from the creative, technical and business communities present their current projects or favorite ideas. Ignite events highlight innovation in the business and non-profit sectors and provide opportunities for networking and the advancement of new ideas and economic development. Ignite Michiana would help showcase sustainability and innovation in our region and inspire continued economic revitalization and creative-problem solving.

Myles Robertson

Myles has been the "star" of our educational YouTube series, “What’s Up Myles?” The series follows the adventures of IU South Bend student Myles Robertson as he goes in search of sustainability. It consists of a series of short videos (taken with our flash cam or an iPhone) in which Myles interviews various sustainability professionals or prominent political officials or business persons in our area, as well as visiting lecturers from across the country. Now that Myles has graduated and moved on to Notre Dame, he will continue the series for at least another year. He will be producing episodes of his series and post them on our YouTube Channel, with Ignite Michiana’s website and Facebook page to keep up to date.

Kathleen Petitjean

This is Kathleen’s third year as a Sustainability Fellow. During the last two years her project was to organize our annual Rain Barrel Art Auction. This has been a very successful event, particularly in its educational capacity. Kathleen will be taking her last six years of experience helping to envision and develop public/private partnerships around sustainability to the next level. She is proposing to create a new not-for-profit organization called “Greening the Bend.” Its mission will be to bring together the artistic, business, not-for-profit, educational, and municipal sectors of the community together to create and help fund sustainability installations. Her first project will be the installation of a green roof on the Century Center. This project has been simmering for some time now, but needs an extra push and some additional funding. As a Sustainability Fellow for the next year, Kathleen will work on getting her not-for-profit status, creating a board of directors, and holding her first major fundraising event, “The Rain Barrel Ball.”
Jessica Mikels-Carrasco

Jessica will study the Natural Step framework and explore how its sustainability guidelines can apply to environmental education. During this period, Jessica will participate in Center’s TNS workshops so that she can become a trained facilitator of TNS as well. As a Sustainability Fellow, the collaboration and training gained by working with the Center for a Sustainable Future will greatly augment her career goals of applying social science research to improving environmental education for young people. In exchange, she will bring to the Center a commitment to expanding our approaches to sustainability to include the youngest members of society and help us to work on some materials that are directed to helping to educate them about the principles of sustainability.

Kelly Hofferth

Kelly will be focusing on our Friends of the Future annual giving campaign. Her fellow’s project is to help develop our campaign and increase our number of donors to 100 during the next year. This fellowship will help improve our development and outreach efforts.

Awards 2012-2013

W. George Pinnell Award for Excellence in Service Learning
Recipient: Mike Keen
April 20, 2012

Student Excellence Award in Master of Liberal Studies, 2011-2012
Recipient: Krista Bailey

David H. Healy Award 2012
Recipient: Krista Bailey

Miles Robinson giving Krista Bailey a lift
(Deservingly so)
Alfred J. Guillaume, Jr., recently retired after fourteen years as the executive vice president for academic affairs at Indiana University South Bend

Damon Leichty is a partner in the Litigation Department of Barnes & Thornburg LLP’s South Bend office

Nathan Vogel is currently a Senior Account Executive and in charge of procurement at Inovateus Solar LLC in South Bend, IN

Doug Way, CRM, ACI is a Vice President at 1st Source ACI, managing the Administrative Services Group, and is President of Washington and Michigan Insurance, Inc., an Arizona domiciled captive insurance company wholly owned by 1st Source Bank.

Dina Harris is the director of development at Indiana University South Bend

Cherri Peate is a dedicated public servant whose passion is to provide state-of-the-art social science knowledge to businesses and individuals.

Mark O’Brien is the Director of Cardno JFNew’s native plant nursery located in Walkerton Indiana.

Anthony Hunt, General Manager of WVPE 88.1FM—4 years. He has over 23 years’ experience at public radio stations in Idaho, Kansas, Minnesota, Maryland, and Indiana as an announcer, development director, & station manager.

Joel Barrett, co-founder of South Bend Green Drinks and is an active board member of the Center for a Sustainable Future at IUSB. Joel is Logistics Team Leader for First Fridays, DTSB. Joel is also Owner and President of Reason2Return.

Angel Hernandez, Vice President of Production for WNIT Public Television. He has produced and directed a diverse lineup of television productions including historical documentaries, news and public affairs and performance programs.

Phil D’Amico, Business Development Manager for Northern Indiana with Barnes & Thornburg LLP. Prior to serving in that role, Phil was the Director of Business Growth for The Chamber of Commerce of St. Joseph County

Sam Miller, Associate Professional Specialist at the University Notre Dame where he teaches Foresight in Business and Society in the Mendoza College of Business, is the former Vice President of Marketing and Strategy at JFNew
**Advisory Board, Continued**

Chuck Lehman, founder and President of Lehman & Lehman, Inc., a landscape architecture and planning firm. Chuck has been involved with urban planning and design, environmental and sustainable design strategies, greenway systems for over 30 years.

Deborah Marr is Associate Professor of Biology at Indiana University South Bend. She received her Ph.D. in Evolution and Plant Sciences from Indiana University – Bloomington in 1997, and did her postdoctoral work at Vanderbilt University.

Kathleen Petitjean. From her home in downtown Mishawaka, she walks, takes the bus or rides her bike to most destinations, including her work as an Occupational Therapist for children with special needs. She does drive on the days she brings her therapy dog to school.

Gary A. Gilot, Director of the Dept of Public Works for the City of South Bend. Gary earned a bachelor of science in Civil and Environmental Engineering from Clarkson University in Upstate New York (1978). He also has an MBA from Indiana University at South Bend (1985).

Service and Civic Engagement, 2012

This was really the first area of program development we focused on at the Center, since it did not require us to wait for bureaucratic approval of new degrees, or to hire new PhDs. As a result, it is our most developed and successful area to date. This year I believe we have moved to a new level of visibility and prominence in the community and region.

We are seen as one of, if not, the go to institution for sustainability issues in our area. Our Board of Advisors has become recognized as a prestigious board to serve on as reported to me by existing, and especially newly recruited (2 in 2012) members. The Center is regularly called upon by the City of South Bend and other municipalities to assist in sustainability related issues. Perhaps most important, we are the major academic partner in bringing GreenTown Michiana, a regional sustainability cross-sector conference to South Bend. We have been pivotal in helping to raise the first $25,000 required to land this conference. I am one of 4 people (including 1 of my board members and 2 executives from two Chicago firms) to form the Core Committee organizing this event. Last year we also conducted another Sustainability and Innovation workshop, increasing the number we have put through this workshop to 300+. Our Michiana Sustainable Community and Economic Development Network now contains more than 600 contacts. We also regularly collaborate with the St. Joseph County Chamber of Commerce, the Small Business Development Association, WVPE, and WNIT. Our “Talking Sustainability” segment on WNIT’s Experience Michiana is broadcast once each week, further expanding our educational reach and connection with the community. Finally, we are moving our relationship with The Natural Step International (TNSI) to a new level, as we are in negotiations to become a Strategic Partner and regional node in the TNSI worldwide network.
