V. Voice of Constituents
   i. Titan Pro
      1. Titan Pro would like to offer two different spectacles (depending on weather) to the IU South Bend Students on River Fest, our end of the academic year celebration. They would like to offer both hamster ball races and glow in the dark laser tag. Bringing in two spectacles actually ends up being more cost effective since the price difference is only slight. If the event needs to be moved indoors, then they would only have one of these spectacles, and would only pay for one. They will also need to provide hospitality for the people who run the spectacles, which includes hotel and food. They already requested 3,000 and would like SGA to help decide if they should move forward with two spectacles, or just do one. If the decision is to do one, they would like your input on which activity students would enjoy the most. If they bring in two spectacles, the price would be $3,750 so we would be requesting an additional $750. The benefit of this event is to build relationships, community, give student sense of school pride, and
provide a holistic college experience.
